GIN SELECTION

GORDON'S

Unique blend of botanicals centred around juniper berries.

BEEFEATER

Classic London Dry profile; big juniper character and strong citrus notes

BOMBAY SAPPHIRE

Juniper prevails, but is spiked with peppery Grains of Paradise and Cubeb berries in the botanicals before being balanced with lemon citrus and sweet almond. Hints of Licorice are evident to a keen nose too

BOSFORD ROSÉ

Made with natural strawberry flavour and a hint of raspberry

GORDON'S PINK

A secret combination with natural sweetness of raspberries & strawberries & a tang of redcurrant

GIN LANE OLD TOM

The gin that came before London Dry and after the sweet 'Geneva'. Lighter and less intense than a London Dry, this modern take on the classic is a sweeter style gin, with increased star anise botanical and distilled from sugar cane, resulting in a full-bodied, perfectly balanced gin, smooth and soft yet still dry.

TANQUERAY

Very fresh and smooth on the nose with slight hints of juniper and citrus coming through. A good hit of licorice is present on the palate, with a slight spice that creates a long tingle. Tanqueray is distilled four times and uses only 4 botanicals – juniper, coriander, angelica and licorice.

MIXERS

We prefer to pair all of our gin with Fever-Tree Premium Tonic Waters and mixers. With only the highest quality natural botanicals and champagne style carbonation, Fever-Tree mixers have been carefully crafted to enhance the spirit they're paired with.

INDIAN TONIC WATER | NATURALLY LIGHT TONIC WATER
MEDITERRANEAN TONIC WATER | ELDERFLOWER TONIC WATER
SICILIAN LEMON TONIC | GINGER ALE | GINGER BEER | SODA WATER
